SUPPLEMENT TO  
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

- 25X1 1. The Stalowa Wola Works have completed 100 anti-aircraft guns. On 1 January 1952, five guns of a new type were to be completed. All documentation for the production of tank guns has been completed. Engineer Antoni Czechowicz is the director of the Stalowa Wola Works.
3. The Andrzej Works in Zawadzkie (Andreashuette - Q52/B33) are required to produce 320,000 grooved iron sheets (10,700 tons) for military airfield runways. The works were in touch with the Military Office in an endeavor to obtain or secure the necessary material, which had not been received. In the production plan for 1952, the Andrzej Works are held responsible for only 3,600 tons of sheet iron.
- 25X1 3. [redacted] head of the Bobrek steel works,<sup>1</sup> in an attempt to increase production figures, added material which had already been reported in the normal production figures. In this way, he borrowed approximately 5,000 tons. [redacted] Similar
- 25X1 manipulation in the production departments of other iron works are often covered by material from old German stocks, e.g., in the Andrzej Works.

25X1

25X1  Comment:

Warzecha as the manager of the Huta Bobrek.
